

## Activity

3

# Magic Glass Trick

## Instructions

- Fill a glass with water.
- Place a piece of paper on top.
- Hold the paper and turn the glass upside down.
- Watch! The paper keeps the water from falling.
- Smile and show your friends!

## Note to Parents

## Take away Learnings

*This activity introduces children to the concept of air pressure in a playful way, encourages curiosity and observation, develops fine motor skills as they carefully handle the glass and paper, and engages them in hands-on, exploratory learning.*
