

Activity

5

Feather vs. Coin

Instructions

- Hold a feather in one hand and a coin in the other.
- Lift both hands high.
- Let them drop at the same time.
- Watch! The coin falls fast; the feather floats slowly.
- Smile and try again!

Take away Learnings

This activity introduces children to the concept of air resistance in a fun way, helps them observe differences between light and heavy objects, encourages curiosity and exploration, develops motor skills, and engages them in hands-on, playful science learning.
